

PETKIT

The technology that cares

PETKIT

PETKIT is a high-tech company dedicated to creating all sorts of high-end smart products for pets, founded in 2013. Thanks to the major developments in mobile internet, sensor technology, cloud computing and big data, it has become easier than ever to create innovative products.

- **Mission**

Innovation is PETKIT's core business activity. Our mission revolves around our company slogan, "The technology that cares". The company uses the latest technology to create innovative and affordable products for pets and their owners.

- **Value**

PETKIT believes in a healthy degree of transparency. The technology is only available to manufacturers. Also, technology 'whiz kids' are encouraged to use the technology to create innovative products for pets.

With this concept, the company strives to expand the number of high technology products for the pet market. With the vision of our company, to provide maximum convenience to pet owners, the issue of stray dogs and cats can be tackled at its source.

FRESH ELEMENT

Smart Pet Feeder

Double "Fresh Lock Door"

Never Stuck
Self-Adaption System

Intelligent System

Smart Phone Control

Scientific feeding, accompany pets with your love

Worried about your pets at home but stuck at work? PETKIT FRESH ELEMENT Smart Pet Feeder, a full-sealing smart feeder with long-range remote, feeds your pets as planned. Show them your love anytime and from anywhere.

Grey

Blue

Double “fresh lock” system

PETKIT created the first double-fresh lock technique. Place silicone sealing ring at the food outlet door, then add the desiccant box on the top of feeder. Keeps fresh, and avoids moldy food!

A never stuck feeder

According to the bionics principle, PETKIT creates a self-adaption system with an oscillating bar, spring check-board, and silicone impeller. Never gets stuck, even after a million tests.

* Fits different dry pet food sizes (5-25mm)

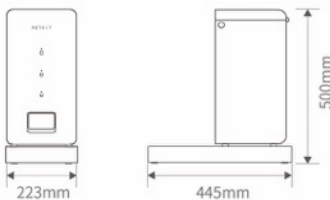

Impact between pet’ s diet & high-tech

PETKIT believes that technique makes life better, so we introduced an intelligent concept into pet’ s supplies. We placed ten high-precision sensors to create safer and more complete system - offering your pets a healthier and enhanced way of feeding.

Smart Phone Control

Set up a feeding plan freely or select a specific PETKIT feeding plan based on your pet’ s background and information. Long-range remote, one key control and receive notices via the PETKIT app.

When big appetite meets big bowls

1.7L capacity contains 750 grams of food, which means that Fresh Metal is for feeding medium-sized and large-sized dogs.

Coral Orange

Wood Texture

304 Stainless Steel

Made of 304 stainless steel, the bowl is corrosion-free and acid-resistant. 304 stainless steel is often used in containers or even medical equipment. Fine surface finish makes the bowl not easy to possession of dirt and convenient to wash.

Accurate Weighing

Fresh Metal supports 4 units to calculate the weight: gram, ounce, pound and milliliter. No matter what kind of food you feed (domestic made or imported), you will not worry about the feeding amount for your dog.

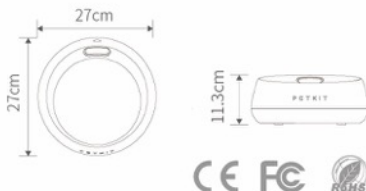

Easy to Dismantle and Wash

It is suggested to wash the bowl regularly to ensure healthy eating. The inner bowl of Fresh Metal is easy for you to dismantle as well as wash, even put it in a dishwasher.

Healthy Feeding

With basic information of your beloved dogs: Weight, Food, Age, Breed, etc. You will get unique suggestion of daily feed in-take through our PETKIT App, bringing a more scientific and healthier eating experience to your pets.

PETKIT App
Feeding Suggestion

Love is always fresh

It can measure the quantity of pet food while giving effective suggestions on how much amount you should feed you pets via our PETKIT App.

A simple product but with thoughtful details is the best expression of our eternal pursuit of great design for your pets.

Antibacterial

Diarrhoea is usually caused by food with bacteria. We use BioCleanAct™ material which can effectively prevent the bacteria from forming constantly.

Accurate Weighing

With your pet's basic info: Weight, Food, Age, Breed, etc. You will get customized daily feeding instructions via PETKIT App, which will bring a healthier and happier life to your pet.

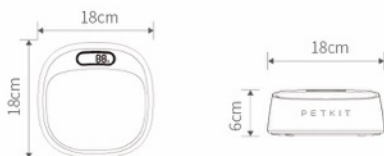

Authorized and Safer

PETKIT Bowl has been certified by several international institutions including RoHS, CE, FCC and FDA in US and Korea (for BioCleanAct™ material). We do our best to keep your pets safe and healthy.

Wash, never be a problem

The exterior screen covered with special protection, buttons located inside, battery box sealed, and drainage hole as honeycomb located at the bottom...all of these features make the bowl easy to be washed, just like the other ordinary tablewares.

EVERSWEET

Smart Pet Drinking Fountain

Triple Purifying System

Intelligent Working Mode

Water-Shortage Alert

Filter Replacement Notification

Be more intelligent than usual

Equipped with a light sensor and a water volumetric indicator, the fountain can automatically change the frequency of water spouting between day and night when it is working at the SMART mode, a more quiet and energy-saving mode.

When at the NORMAL mode, the water will keep welling up to make sure that your pets can always get access to the fresh water especially after their intensive activity.

Purified and healthier.

Smart Mode

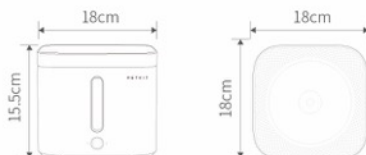

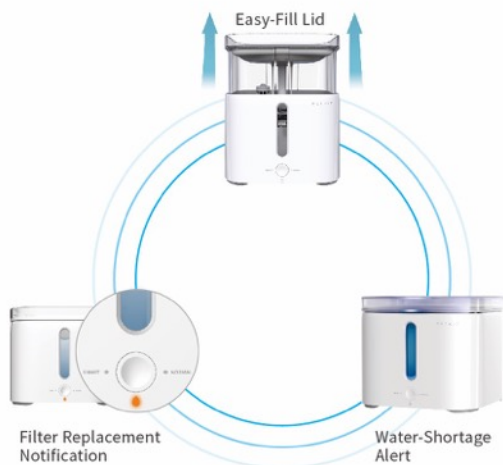

Light sensor to detect day/night, and thus to change the welling-up frequency.

Water volumetric indicator to alert when there's not enough water inside.

Ultra-silent Design

The noiseless designed pump and the unique convoluted water flow bring a special and quiet experience to pet owners.

WWW.PETKIT.COM

Reliable Quality and Better Application

With tight seal and safety lock, it's perfectly designed to fit into your bag, your cap holder in the car and your life with pets. The depth of the water trough can prevent water from spilling. You can use the bottle inside your room or car.

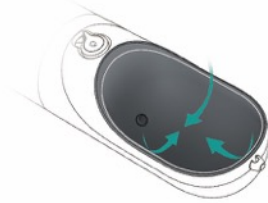

One-hand Watering

We designed the drinking trough and the water container one bottle. Just one simple press, the water will flow out smoothly.

Satisfy your dog as well as yourself

Dogs usually drink water by curling their tongues, just like a spoon to get as much water as they can. Thus we designed an arc trough to fit their living habit, making it easier for them to drink.

Strong Antibacterial Effects

Since the bacteriostatic effect cannot be easily achieved by the sealed cup, we choose BioCleanAct as the main material because of its continuous inhibition of the bacteria growth in the open drinking trough.

Portable Purification System

A considerable water purification resolution for outdoor activities. Activated carbon can remove impurities and reduce the chlorine from direct drinking tap or cooled boiled water. By contrast, the replaceable carbon filter is equal to 100 single-serve water bottles, which is more economic and environmental-friendly.

Weight	157g
Material (Trough)	ABS (BioCleanAct™ included)
Capacity	400ml
Filter	Coconut Shell Carbon

GO

Smart Pet Leash

Intelligent System

Superb Hand Feeling

Replaceable Rope

Lighting System

WWW.PETKIT.COM

Innovation of a healthier and more comfortable dog-walking experience

The primary function of an excellent dog leash is to deliver a smooth and extraordinary feeling for your hands, adding pleasure to your dog-walking experience in other aspects.

Fine production of both inside and outside

Superb Hand Feeling

The outside handle is made from solid polycarbonate and the inside is of soft TPE polyethylene, which brings superb hand feeling even for long-time holding.

Change as You Want

GO is designed for pet owners to replace leashes to meet all your requirements for different functions when walking your dogs, e.g. flexible or fluorescent leash, etc.

- Standard Rope
- Reflective Rope
- Shock-absorbing Rope
- Non-slipped Rope

Lighting System

Equipped with LED, you don't need to worry about low lights when walking your dog anywhere that is dark.

Circular lamp band

Set your lamp by PETKIT App to bring more security at night.

Torch

Night dog-walking illumination.

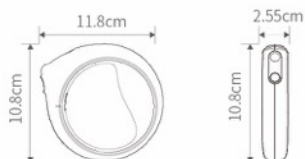

Intelligent System

Share your roadmap

Each time when you finish walking your dogs, a dedicated roadmap will be generated via our PETKIT App to clearly present the route and store it in the history.

Sync with your cellphone

Equipped with SMART HANDLE, you won't miss any important messages because GO can synchronize with your cellphone and remind you of all the notifications.

PETKIT

FIT P2

Pet Activity Monitor

Activity Monitoring

Sleep Analysis

Consumption Record

Fit Report

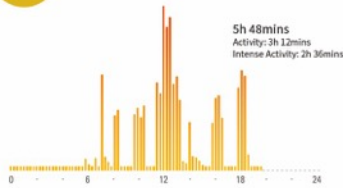

Light and elegant smart wearable device for pets

The reason we use magnalium as our case material is not only for its high-quality shell, but also for its lighter mass and strong pressure resistance. Micron sandblasting on the surface gives it a smooth and delicate texture. After 16 processing procedures, P2 is fully able to endure hard impact while still maintaining its sturdy and original shape.

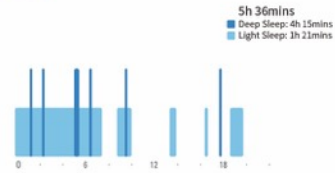

Activity Monitoring

Adopted advanced sensor P2 records the pets activities 24/7 and collects the information sending it to Cloud for calculation and analysis. This data will report the pets actual performance on PETKIT APP.

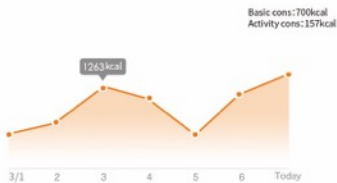

Sleep Analysis

How long is your pet asleep?
P2 helps to get correct sleeping time of your pet and check the sleep quality.

Consumption Record

According to the pets information that is collected by P2, the expended calories can be precisely calculated. Combined with feed brands and consumption trend your pets food quantity can be controlled confidently and clearly.

Fit Report

Detailed daily performance with 24 hours continuous detection:

- 'Today's mood is happy.'
- 'Health condition is below the standard.'
- 'Insufficient in total activity time.'
- 'Too much intense activity today.'
- 'Deep sleep time is insufficient.'
